

ACS College of Engineering

(Approved by AICTE, New Delhi, Govt. of Karnataka & Affiliated to Visvesvaraya Technological University, Belgaum)

Sponsored by : MOOGAMBIGAI CHARITABLE AND EDUCATIONAL TRUST

6.5.2 The institution reviews its teaching learning process, structures & methodologies of operations and learning outcomes at periodic intervals through IQAC set up as per norms and recorded the incremental improvement in various activities (For first cycle - Incremental improvements made for the preceding five years with regard to quality For second and subsequent cycles – Incremental improvements made for the preceding five years with regard to quality and post accreditation quality initiatives)

Response:

IQAC continuously reviews the quality of the teaching learning process at the end of each semester in accordance with the academic calendar to ensure all the academic processes are carried out regularly. All the faculties calculate the CO & PO attainment of their respective subject(s) and it is submitted to the departmental coordinator. The HoD's take necessary actions if anyone who have less than the set target of the attainment values of CO and PO.

The assessment questions are set based on the learning levels of Bloom's Taxonomy. Bloom's Taxonomy facilitates the faculty to define measurable course outcomes and students to better identify the questions and hence write the suitable answers. Different weightages are assigned to learning levels from first year to final year subjects. More weightage is given to the lower learning levels for first year subjects, while weightages for higher levels go on increasing from second year onwards. These aid students to develop critical thinking which orbits make them able to design solutions for complex engineering problems.

The institution has initiated active innovation cell (Pongu Ventures) a Business incubator to promote entrepreneurship skills. Center for Test and Data Sciences (CTDS), an interdisciplinary center to establish better collaboration between academia and industries. Also the institution has established UC Berkeley and Intel intelligent System laboratory to bridge the gap between industry and academic. The institution is constantly reviewed to reflect a realistic view in the emerging context by the collaboration with the industries.

Students are asked to watch video lectures available on open course ware modules to improve the knowledge and aware the emerging trends in their specialized course. This also improves learning skills of the students as well as inculcates habit of self-study which further increases their confidence and also helps in their career progression in near future.

The major initiatives taken over the last five years include the following:

- Introduction of Home Assignments
- Automation of Admission Processes - Provision for online fee payment
- Curriculum Development Workshops in many subjects
- Green initiatives in Campus – tree plantation
- MoUs with prestigious Institutes, Universities, Govt. agencies
