About the Event:

The Aeronautical Engineering department conducted a session for first year students on the topic "Skill Development" on 19/03/2024. The program was started at 02.00 pm with the welcome speech and introduction about the resource person by Dr.G.Ramanan, HOD, AE Department. Professor Soma highlighted that actual skills practice during which training participants physically practice the skills they are learning. A skills-based activity can also be a simulation, that is, a "pretend" way to practice skills. He mentioned that Life skills are defined as a group of psychosocial competencies and interpersonal skills that help people make informed decisions, solve problems, think critically and creatively, communicate effectively, build healthy relationships, empathize with others, and cope with and manage their lives in a healthy ways. The resource persons Prof.Soma by faculty and Student participants of first year Students expressed their gratitude that the program was highly informative and interesting. Finally, the session ended with the vote of thanks.
